

SONOGRAPHER'S QUICK REFERENCE GUIDE TO STRETCHING IN THE WORK PLACE | ARMS AND SHOULDERS

Theraband rows

- Attach theraband to door handle
- Pull band towards you as you bend elbow
- Squeeze shoulder blades back
- Repeat 15 times per side

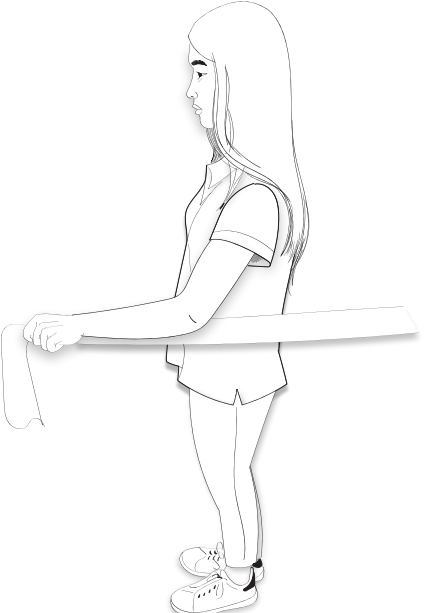

AIM strengthen scapular retractors

Theraband hands up

- Hold band with palm down and elbow 45 degrees away from the body
- Rotate shoulder so the hand finishes with the palm facing forward ('hands up')

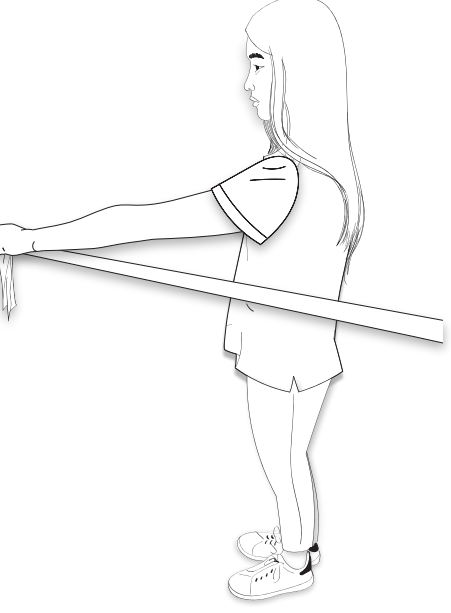

AIM strengthen posterior rotator cuff

'Wax on, wax off'

- Hold band with elbow bent
- Move arm forward without hitching shoulder
- Move hand in circular motion (like waxing car), then reverse circle
- Repeat 10 times per side

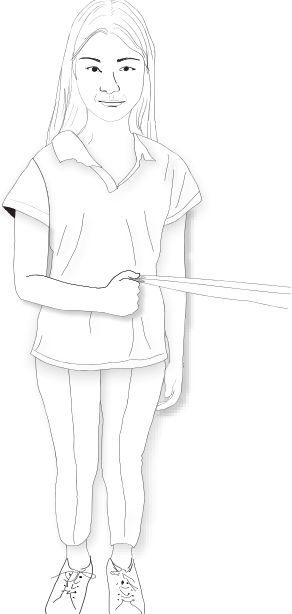

AIM improve rotator cuff control

Punch plus

- Hold band with elbow bent
- Push arm forward until elbow straight
- Continue to push forward as you round your shoulder without hitching shoulder
- Repeat 10 times per side

AIM Improve serratus anterior strength

External rotation

- Attach theraband to door handle
- Hold band and tuck elbow to side
- Rotate shoulder out from body
- Repeat 15 times each side

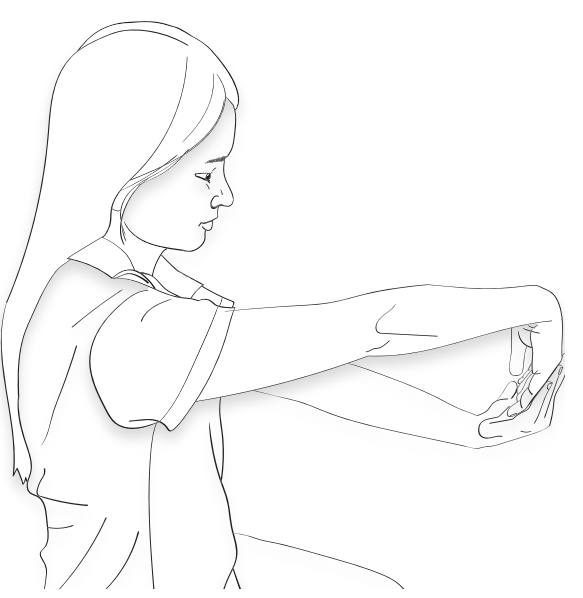

AIM strengthen posterior rotator cuff
