

DAY 1				
Presidents Address				
Plenary 1			Practical Session	Satellite Session
Bowel Ultrasound for The Generalist	Head And Neck - Multidisciplinary Team in Action, Working Together for A Better Service	Physics 1		Working Smarter: Aligning Technology with Healthcare
		Chair: Pete Hoskins Sian Curtis		Chairs: Rita Phillips Antonio Sassano
Bowel Ultrasound Technique and Anatomy Ruth Reeve	Thyroid Imaging - Is It All About Ultrasound? Sobana Battison	Ultrasound Elastography: What Are You Measuring? Kumar Ramnarine		AI In Clinical Practice Ben Stenberg
Paediatric Bowel in The Acute Setting Jeannette Kraft	Imaging of The Parathyroids - Should It Be All About Ultrasound? Colin Griffin	The NPL's Initiatives to Increase Confidence in Elastography as a Quantitative Diagnostic Tool Andre Alvarenga		Using Simulation Technology in Teaching and Learning Catriona Hynes
A Generalists' Guide to Bowel Pathology Nigel Grunshaw	What the Parathyroid/Thyroid Surgeon Needs from Radiology Sheila Fraser			AI - Taking Ultrasound to The Next Level Hasnian Ahmed
	Developing Multi-Disciplinary Head and Neck Services – A Careers Worth of Experience! Ram Vaidhyanath			
	Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break
Renal Session	Advanced Head and Neck Ultrasound/Imaging	Physics 2	MSK Practical	Working Beyond the Diagnosis: Advance Through Research
		Chair: Pete Hoskins Sian Curtis	Mark Charnock	Chairs: Antonio Sassano Catriona Hynes
Vascular Flow Patterns Assessment and Application in the Renal Transplant Peter Cantin	Neck Lumps in Patients with Otalgia Christopher Greenall	Ultrasound-Mediated Chemoradiation Therapy for Muscle-Invasive Bladder Cancer Jia-Ling Ruan	Amanda Parry Richard Brindley Nikki Delves Katie Simm Lynn Bradley Andrew Longmead Mark Maybury	AI to Help Learn and Research Ben Potts
Scanning of the Paediatric Kidney: Congenital Disease. Louise Hattingh	Cross Sectional Head and Neck Imaging: A Guide for Sonographers Amy Barnes	The Curious Case of the Contrast Microbubble (Part 2): Science or Fiction Vassilis Sboros		How to Secure Grants /Funding for Research Ruth Reeve
Sonographic Assessment of Urinary Tract Tumours	Ultrasound of Head and Neck Nerves - Seeing Beyond the Obvious! Alexander Loizides	Non-Invasive Microsurgery Using Focused Ultrasound And Acoustic Particles James Choi		Publishing Your Research (Dos And Don'ts) Colin Griffin
Lunch	Lunch	Lunch	Lunch	Lunch
Ultrasound in Cancer Session	Transforming Ultrasound Education and the Four Pillars of Practice	Physics 3		Working From Within: Unlocking the Power of Self
	Chairs: Pamela Parker Shaunna Smith	Chair: Pete Hoskins Sian Curtis	Mark Charnock	Chairs: Rita Phillips Colin Griffin
Ultrasound Screening for Hepatocellular Carcinoma: An Update Benjamin Stenberg	Entry Into Ultrasound Education, An Update for Clinical Departments Trudy Sevens	A Programme of Work from the National Physical Laboratory for the Safety, Efficacy, and Compliance of Ultrasound in Medical Applications Srinath Rajagopal	Amanda Parry Richard Brindley Nikki Delves Katie Simm Lynn Bradley Andrew Longmead Mark Maybury	The Second Victim Phenomenon Elaine Gardiner
The Paediatric Abdominal Mass Tom Watson	The Pillar of Education and Its Role in Advancing Practice Within the Ultrasound Farrah Elsaghir	Challenges Associated with Quantifying Modern Medical Ultrasonic Fields. Andrew Hurrell		Prevention of Work-Related Musculoskeletal Disorders for Sonographers Viv Gibbs
Management of Serious and Unexpected Findings. Adam Aboalkaz	Going Beyond Advanced Clinical Practice into Expert Practice Pamela Parker	Measurement and Modelling for Novel Therapeutic Applications of Ultrasound Rui Xi		Seated and Standing Yoga Stretches for Sonographers Charlotte Bower - www.Bodyflowyoga.Com
Refreshments	Refreshments	Refreshments	Refreshments	Refreshments
DMB Lecture				
Welcome Reception				

DAY 2

DAY 2				
Early Pregnancy	Trials and Tribulations of Soft Tissue Masses	Young Investigators	Interventional	
Chairs: Jonathan Gaughran Trish Chudleigh	Chairs: Amanda Parry Richard Brindley	Carmel Moran, Adrain Lim, Sian Curtis	Steve Savage	
The Role of The Recurrent Miscarriage Clinic Rachel Small	Unveiling the Tricks of the Trade: Ultrasound of Soft Tissue Masses Mark Charnock		Nicola Davidson Kerry Green Steve Klarich Catherine Lee Claire Lindsay Catherine Kirkpatrick Helen Mclean	Pocus for Urological Causes of Abdominal Pain Bob Jarman
The Ultrasound Appearances of Non-Tubal Ectopics Naomi Paige	Management of Soft Tissue Masses – Do You Have a Plan? Kaite Simm			Pocus for Biliary Causes of Abdominal Pain Simon Richards
Pitfalls In Diagnosis of Miscarriage Roxanne Sicklen	Ultrasound Triage of Musculoskeletal Tumours: The Good, The Bad and The Ugly Rob Ashfield			Pocus for Gastrointestinal Causes of Abdominal Pain Anna Colclough
				Pocus for Gynaecological Causes of Abdominal Pain Phil Dowson
				The Abdominal Black Box - A Systematic Approach to the Undifferentiated Patient Ashley Matties
				Panel Discussion
Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break
Gynae-Oncology	Challenges and Barriers in MSK Ultrasound	AXREM Session	Breaking Bad News	
Chairs: Naomi Paige Roxanne Sicklen	Chairs: Mark Charnock Richard Brindley			
Ultrasound Characteristics (Pattern Recognition) of Common Ovarian Tumours Jonathan Gaughran	Highlights of the BMUS MSK Travelling Ambassador's Experience Amanda Parry		Una Mcfadden Kate Stanton	International Pocus Club Chris Yap
The Post Menopausal Uterus and HRT Alison Smith	To Conclude or Not to Conclude. A Discussion on Producing Quality Ultrasound Reports Katie Simm			Pocus Research - Quantity Over Quality? Kal Murali
Novel Markers – In the Detection of Endometrial Cancer Osama Naji	Image Interpretation and Reporting - Advice from an Expert Witness Alison Hall			Community Pocus Sarab Clare
				Developing Pocus Transoesophageal Echo Marcus Peck
				What Clinical Practice Guidelines Exist for Pocus - A Systematic Review Ashley Matthies
				Panel Discussion
Lunch	Lunch	Lunch	Lunch	Lunch
Sub-Fertility	Rheumatology Revisited	Vascular Session 1	Perfecting Liver and Doppler Imaging Techniques	Therapy in Ultrasound Network for Drug Delivery and Ablation Research
Chairs: Trish Chudleigh Judith Hamilton	Chairs: Mark Charnock Amanda Parry	Chairs: Tanyah Ewen Jo Walker	Pamela Parker	Prof Gail Ter Haar
How Advanced Ultrasound Techniques Are Used in Assisted Conception Angela Clough	GCA Ultrasound Service Provision. A First Year Experience. Andrew Longmead	Carotid Artery Duplex: Technique and Pitfalls Jack Wilson	Colin Griffin Gerry Johnson Peter Cantin Shuanna Smith# Ruth Reeve	Trial Update on Image Guided Histotripsy of Liver (#Hope4Liver) and Renal (CAIN) Cancers Tze Wah
Subfertility – The Patient's Journey TBC	The Less Common Ultrasound Guided Interventions in Rheumatology Alison Hall	Assessment of Dialysis Access Tanyah Ewen		
Uterine and Endometrial Pathology and The Impact on Subfertility TBC	Seronegative Inflammatory Arthritis - Exploring Beyond the Realm of Rheumatoid Arthritis Richard Brindley	Posat RFA Appearance Siobhan Trockowski		
	How Does USS Influence My Practice as a Rheumatologist in Inflammatory Arthritis? Sam Hider	Exercise Programmes Philip Stather		
Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break

Acute Gynaecology	From Top to Bottom....The Lower Limb Explored!	Vascular Session 2	Pocus	Therapy in Ultrasound Network for Drug Delivery and Ablation Research
Chairs: Jonathan Gaughran Alison Smith	Chairs: Mark Charnock Amanda Parry	Chairs: Tanyah Ewen Jo Walker		Prof Gail Ter Haar
How Useful is Ultrasound in the Assessment of Non-Pregnant Patients Presenting with Heavy Vaginal Bleeding? Annmarie Coady	Around the Thigh in 20 Mins? In Search of Neglected Muscles; Hamstrings, Adductor Magnus, Sartorius and Gracilis. Anatomy, Function, And Sonographic Appearances Mark Maybury	Sickle Cell Transcranial Doppler Jo Walker	Ashley Matthies Chris Yap Anna Colclough Simon Richards Phil Dowson Kal Murali Sarab Clare Marcus Peck	Adaptive Focusing for Deep Brain Ultrasound Stimulation: Application to Psychiatric Disorders Jean-Francois Aubry
The Role of Ultrasound in Patients Presenting with Acute Pelvic Pain –Ovarian & Adnexal Pathology Judith Hamilton	Cutaneous Innervation of The Lower Limb Nikki Delves	GCA Duplex Nazia Saeed		
The Role of Interventional Radiology, CT & MRI in Acute Gynaecological Patients Sarah Natas	Ankle Ligaments: The Overlooked Support Act James Dent	Diagnosing TOS During Upper Limb DVT Scan James Sidlow		
		Vascular Surgery in the Forces Michael Robinson		

DAY 3				
Plenary 1			Practical Session	Satellite Session
Working Together to Meet the Requirements of Saving Babies Lives Care Bundle	Supporting Managers in the Face of Changing Education	Wellbeing		
Mrs Ellen Dyer Mr Robin Hughes	Chairs: Alison Deslandes Farrah Elshahir	Gill Harrison		Angie Lloyd-Jones
Overview of SBLCB – What Every Sonographer Should Know Ellen Dyer	How To Build a Department Around Undergraduate Sonographers Nicola Davidson	Ergonomics and Reducing the Risk of WRMSD Gill Harrison		Session Introduction Angie Lloyd-Jones
Evaluating the Impact of the SBLCB - The Evolve Study Alexander Heazell	Strategic Leadership – What Does Good Leadership Look Like Patricia Ezchia	Emotional Labour Tracey O'Regan		How Surrey University School of Veterinary Medicine Is Preparing Their Veterinary Students for Future Ultrasound Practice Catherine Finnegan
What Are the Current Challenges Facing Maternity Services Beyond SBLCB? Mrs Amanda Rowley	Sharing Workforce Challenges Alison Deslandes	Delivering Unexpected Findings Whilst Taking Care of Yourself Judith Johnson		Challenges Faced When Setting Up a Peripartum Ultrasound Service Fabrizio Tucciarone
How Can Sonographers, Midwives and Fetal Medicine Specialists Work Together to Meet SBLCBV3 and Balance the Ever Increasing Demand for Growth Scans? Umber Agarwal	Leading Transformation in the Ultrasound Workforce Pamela Parker			What I've Learned About Ultrasound in the Last Year – Diary of an out of Hours Vet Nurse! Amy Webster
Round Table Discussion				
Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break	Refreshment Break
Working Together with Paediatrics Services – Renal Conditions	Political Health Economics	Breast Ultrasound		
Mrs Ellen Dyer Dr Emily Skelton	Chairs: Ruth Reeve Shaunna Smith		Led By Charlotte Bower	Angie Lloyd-Jones
Revisiting Renal Conditions Identified at Routine 20 Week Screening Trish Chudleigh	Understanding Test Performance Tom Johnston	Introduction to the Session" and "An Overview of the Ultrasound Appearances of Breast Implants for Cosmetic and Reconstructed Breasts Lucie Magilton Griffin		How to Assess the Portal Vein on Ultrasound - Normal and Abnormal Portal Vein Appearances On Ultrasound. Cristi Glavan
Post-Natal Outcome of Renal Conditions Diagnosed Antenatally Rebecca Hawkes	Faster Diagnostic Pathways, 6WW and Screening: The Saga of the Battle for Precious Capacity Pamela Parker	Ultrasound of the Axilla - More Than You Might Think! Colin Griffin		Ultrasound Renal Tract Abnormalities Pete Cross
How Can We Foster Better Links Between Maternity and Paediatric Services? Hsu Chong	Reducing Health Inequalities Within Diagnostic Services Linda Hindle (OBE)	Ultrasound Appearances of Common Benign and Malignant Lesions With Mammographic Correlation Sheetal Sharma		
		Ultrasound of the Male Breast. What's Normal and What's Not! Kate Greenwood		
	Round Table Discussion Involving Balancing the Needs of Screening Vs Faster Diagnostic Standards	Breast Ultrasound in Post-Surgical And Therapy Patients - Common Appearances Trupti Kulkarni		
Lunch	Lunch	Lunch	Lunch	

Working Together with Research		Accountability, Taking Responsibility & Providing Intelligent Care.		
Mrs Ellen Dyer Mrs Trich Chudleigh	Chairs: Alison Deslandes Ruth Reeve			Angie Lloyd-Jones
First Trimester PET Screening – Bridging the Gap Between Research and Best Practice Daniel Scott	Getting It Right First Time in Imaging Giles Maskell			Basic Cardiac Views and Common Abnormalities for Primary Care Practice Ultrasound Users? Mark Overend
Can 3D Ultrasound Help Us to Diagnose Fetal Conditions and Improve Antenatal Counselling? Anna Clarke	How Do We Deliver Continued Improvement? Alison Deslandes			Ultrasound of the Prostate Gland Mark Plested
How Might Understanding Fetal Behaviour Translate into Improvements in Antenatal and Postnatal Care? PIPKIN and NBAS Staci Weiss	Considering the Impact of Patient Direct Access to Imaging Reports Charlie Rogers			Case Based POCUS In ICU Patients' Helen Wilson (TBC)
Understanding Fetal Bonding and the Role of Ultrasound Emily Skelton	Sharing Workforce Challenges Alison Deslandes			The E.A.S.I.E.R Ultrasound Solution – How to Develop and Sustain a High Quality, Financially Successful Primary Care Ultrasound Service. Angie Lloyd Jones
Informed Consent in Antenatal Screening. What Do Midwives and Sonographers Understand? Alexandra Drought				Open Forum Q&A and Discussion on Vet Stream Study Day Angie Lloyd Jone & Mark Plested
