

Launch of the London Imaging Academy Online Learning Platform

The London Imaging Academy Online Learning platform is launching on the 7th May 2024 and is accessible to all NHS Imaging Health Care Professionals and support workers in the Capital. Anyone working for a London NHS Trust is encouraged to register on the site to access educational content.

What is the online learning platform?

- A central learning resource created by and for each of the London Imaging Academies (North West, North East, North Central, South West, South East)
- See live, upcoming courses and book your place
- Complete online education modules and gain CPD
- New content is regularly uploaded and covers all modalities
- Currently the site content is only available to those working for a London NHS Trust however those working outside the Capital/NHS can register to access events and courses hosted by the Academies

The platform offers a diverse range of content and courses to provide training for newly qualified staff, as well as refresher training and upskilling. This is a joint venture between all Imaging Academies across London, with content created by our NHS expert educators.

CPD accredited courses for sonographers: Ultrasound introductory modules containing detailed scanning technique videos, normal and pathological findings with ultrasound images in:

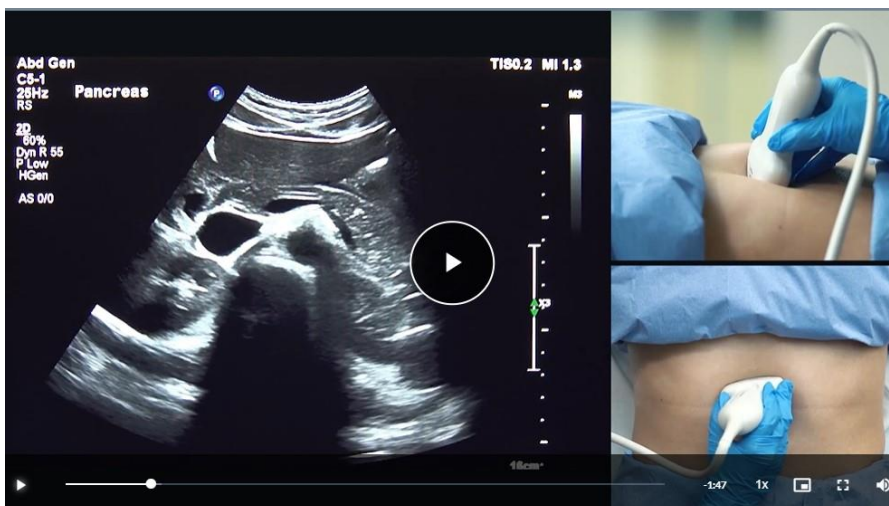

- Introduction/Physics
- Breast
- Gynaecology
- Upper Abdomen
- Urology

Coming soon: Paediatric ultrasound, Head and Neck, DVT, Hernia and Interventional Radiology.

How do I register?

- [Click here](#)
- Sign up with your NHS email address to access the educational content

If you have any ideas, feedback or questions – please get in touch after registering [here](#).
